Physician Claim Checklist

This physician claim checklist is mandatory for adjustments/resubmissions and may also apply for group-specific accounts and related workflow warning messages.

- The following is *mandatory* to check in every physician claim:
 - Pull and view claim image in [DOC360](#) to ensure provider picked matches by reviewing the [OBH Facets Provider Selection Guidelines](#) P&P.
- The following are *mandatory* items to check in every physician claim for *adjustments/resubmissions*:
 - Subscriber ID
 - Member Name
 - Receive Date (Julian Date) The Facets system automatically defaults to current date. Change this date if it is invalid. Enter the earliest date the claim was received.
Examples:
 - If the claim was received via fax and the fax date is earlier than the FLN (Julian) date on the image, then the **Received Date** entered should be the fax date. (Required)
 - If the claim shows PHS (followed by State such as PHS-CA) receive date and it is earlier than the FLN (Julian) date on the image, then the **Received Date** entered should be the PHS date.
 - If the claim is from Providence Health Plan, use the receive date located under the BHT04 Transaction Set Creation Date of the claim. Example below shows receive date 6/3/24.
 - Examiners are required to enter claim note indicating when Optum received the claim (usually the fax date) from Providence when that is in conflict to the set date.
If the Julian, Fax or Stamp date is lower than the Transactions Set Creation date please contact lead for assistance in determining correct receive date.

BHT Beginning of Hierarchical Transaction			
BHT01	Hierarchical Structure Code	0019	Information Source, Subscriber, Dependent
BHT02	Transaction Set Purpose Code	00	
BHT03	Originator Application Transaction Identifier	2024155230918	
BHT04	Transaction Set Creation Date	20240603	
BHT05	Transaction Set Creation Time	23091853	
BHT06	Claimor Encounter Identifier	CH	Claim or Encounter Identifier

- COB, if patient is a *spouse or child*
- Provider ID (TIN should match provider used in auth)
- Diagnosis
- Authorization
- Type of Service
- Statement Covers Period (To & From), if applicable
- Type of Bill
- Payee (Assignment of Benefits)
- Line Items Dates
- Accommodation Rates
- Line (Item) Charges
- Units
- Billed amount
- Copay
- Coinsurance
- Deductible
- Paid Amount
- EOB Codes
- Received Date (Julian Date)

Note: If an Adjuster receives a request to adjust a claim, that was adjusted in previous years when the received dates were changed on the *Indicative* screen, the Adjuster should change the received date back to the original date. This ensures we are processing per our current guidelines and not altering claims.

- The following are *recommended* items to check in **Benefits** (paying closer attention to any *group-specific* benefits):
 - Daily Benefits
 - Tiered Copays
 - Percentage of Payment
 - Non-Notification Penalty (if applicable)
 - Regular Penalty (if applicable)
 - Interest Clean Date (if applicable)
 - Out of Pocket
 - Annual Maximum Benefit (days or dollar amount)
 - Lifetime Maximum Benefit (days or dollar amount)

Notes:

- Thoroughly research Linx, eAccomm and Facets prior to sending a “Rate Issue” to the appropriate department:
 - [ePUF](#) – Participating (INN) & Enterprise Now Ticket for Non-Participating (OON) Provider.
 - Forward to Team Lead (for Care Management follow-up) – Accommodations.
- The section of CBS which indicates Medical Necessity (Yes or No) is used for Clinical staff, not Claims staff.
- When CBS indicates “Parity,” it does not mean that claims for that member receives the Parity Retro Review Required (PRR) and/or CCR WFWM or be subject to either of those P&Ps.
- If the claim receives the CCR WFWM, then follow [OBH Facets CCR Review](#).
- If the claim receives the PRR WFWM, then follow [OBH Facets Parity Retro-Review \(PRR\) Process](#) since these accounts are on the list of parity accounts.
